WhatsApp/Mobile: +63 906 036 4511

EDUCATION

Ateneo de Zamboanga University

Zamboanga City, Philippines

Bachelor's of Science in Computer Science

Expected Graduation, May 2027

- **Concentrations:** Web Development, Cloud Computing, and Systems Architecture
- **Related Coursework:** Computing Fundamentals Software Engineering, Object-Oriented Programming, Statistics, Discrete Mathematics, Web Development, Data Structures & Algorithms, System Analysis And Design, Machine Learning, Database Systems

EXPERIENCE

JP Consulting and Services LLC

Sharjah, United Arab Emirates

Web Development Internship

April 2026 - May 2026

- Assisted in developing and maintaining **full-stack web applications** for Australian-based clients under the guidance of a **Senior Developer** that adheres to **client requirements and project specifications**.
- Contributed to **frontend and backend development**, debugging, API integration, database-related tasks, testing, and implementation of responsive user interfaces using modern web technologies.

Leo Rent A Car

Zamboanga City, Philippines

Freelance Developer

Jul 2025 - Aug 2025

- Built a **full-stack car rental website** for a private business in Zamboanga City which enables customers to browse vehicle fleets, explore services (airport transfers, corporate travel, tours), as well as submit booking inquiries through an **integrated email/contact system** via Resend API.
- Designed first using **Figma first** and built responsive and layouts with **TailwindCSS v4** with custom **IntersectionObserver hooks** for scroll-triggered animations as well as optimized **lazy-loaded** images for **memory-performance**.

ACHIEVEMENTS

1st Runner-Up – Build with AI Hackathon 2026

Zamboanga City, Philippines

Frontend Developer & Project Co-Lead

May 20 - May 21 2026

- Collaborated with a 5-member team in a 2 day event **“Build with AI Hackathon”** at KCC Mall de Zamboanga, competing against **8 teams** in Zamboanga City. **Achieved 1st Runner-Up** placement with project **“Weaveable,”** a **React Native** mobile app supporting SDG 12 through AI-powered sustainable **wardrobe management application system**.

Regional Winner – Tourism Startup Challenge 2025 (Region IX)

Zamboanga City, Philippines

- Developed mobile application called **“Anyam”**, a tourism startup project demonstrating product design, system architecture, and full-stack development; **Regional Winner** (Region IX) and **National Qualifier** in the **CHED–DOT Tourism Start-Up Challenge** held at Seda Vertis North, Quezon City.

PROJECTS

Social Development Unit - Ateneo de Zamboanga University

Zamboanga City, Philippines

Full-Stack Developer & Project Manager

Sept 2025 - Dec 2025

- Used **React, MUI, and TanStack Query** to build a multi-office dashboard that **tracks programs/activities** of each sub-offices and its SDG's alignment, enabling centralized monitoring for the head office; Unit Director.
- Implemented **automated report generation** that compiles monthly activities, budgets, and SDG alignment into printable reports, a solution from manual data consolidation.
- Digitized activity tracking for 6 SDU offices using **dashboards and analytics** diagrams, replacing paper-based monitoring with real-time program status updates.

WaiveRight

Full-Stack Developer | Freelance

Zamboanga City, Philippines

Nov 2025 - Dec 2025

- Used **Next.js 16 App Router** with **Supabase** and **TanStack Query** to build a dual-portal academic waiver management system with role-based authentication (students vs. admins).
- Used Supabase **RPC** functions and **Row-Level Security (RLS)** with custom password hashing (**pgcrypto**) to implement a complete custom authentication system with secure session management.

MujerLGBTQ+ Organization

Frontend Developer

Zamboanga City, Philippines

Sept 2024 - Nov 2024

- Used pure **vanilla JavaScript, CSS, HTML** to build our **first** dynamic and responsive website as a team, that produced a polished client-ready platform showcasing and supporting their advocacy through clear purposeful design.
- Collaborated with my four classmates to **design, code**, and launch a **multi-page site**. Became my stepping stone that broadened my passion in web development and gave me **hands-on experience** in **real client work** and **teamwork**.
